

Safe is the first of Speedy's Values, supporting our Mission to provide safe, reliable hire equipment and services to enable successful delivery of customer projects. A fundamental principle in delivering our Mission and Values is our commitment to Health and Safety.

Speedy is committed to ensuring the Health, Safety and Welfare of the employees so far, as is reasonably practicable and will strive for continual improvement and prevention of injuries and ill health in all its activities. Health and Safety should never be compromised for other objectives.

The Company extends that same commitment to those personnel who are not employed by the Company who may be affected by our acts or omissions.

The Company requires the commitment to Health and Safety from all employees for the successful implementation of its documented policies and is committed to consulting and participation with employees.

The Company will provide and maintain healthy and safe and healthy working conditions, a suitable environment for all personnel involved in its activities and will appoint competent personnel to assist in meeting our current and future statutory duties.

The Company employees will be given such information, instruction and training as is necessary to enable work activities to be undertaken giving due consideration to Health and Safety. Our customers will be offered such information and instruction to enable safe operation of hired equipment and, where applicable, training will be arranged.

The Company will ensure that all equipment provided for hire is inspected, maintained, tested and fit for purpose.

The Company expects that employees will adopt and maintain a responsible attitude towards safe driving, achieved by operating their vehicles at all times in a manner that is safe, responsible and accident free. Vehicles must be maintained in a roadworthy condition at all times. This applies to all vehicles including private vehicles used for work purposes.

The Company are committed to meeting the requirements of OHSAS 18001:2007, eliminating hazards, identifying areas of significant risk and establish controls to reduce these risks and monitor their effectiveness.

The Company periodically reviews its policies, performance and legislative compliance and will establish best practice and comply with current legislation to address areas of concern.

This Health and Safety Policy Statement is available at our locations and made available to interested parties. This provides a framework for the setting and reviewing of objectives, documentation and maintenance of Health and Safety.

The Company communicates its Health and Safety Policies and responsibilities to all levels.
